

R13

Total Mattress Height : **13"**
 Total Comfort Layers : **6"**

The R13 number bed mattress allows you the ability to adjust your level of comfort and it also provides rejuvenation benefits to help revive your body through out the night. The R13 number bed is made up of a temperature neutralizing copper infused Energex™ comfort layer, an air flow comfort layer and a support layer. The dynamic properties of the Energex comfort layer make it more responsive to body temperature. The cover is an ultra-stretch embossed smooth top panel with phase change material. Also includes our new, poly blend, ultra-flex air chambers.
