

Spirit of America

...let freedom and value ring

Our thoughtfully crafted Spirit of America line of mattresses is designed to give you the support your back and dreams deserve without breaking the bank. Using premium materials that are locally manufactured rather than shipped across the ocean, these beds bring value that is unrivaled and keeps America on top of her game.

HIGH PROFILE BONNELL COIL SYSTEM

This traditional "open" coil unit is among the most tried and true for active support and exceptional airflow. 13.5 gauge wire spun in an hourglass shape is durable and uses a 9 gauge border wire for additional sleep surface and sitting stability.

COMFORT LAYERS

A thick layer of Dacron material gives this bed a touch of softness while the 1.25" of Poly-LOFT foam gives a supportive feel on top of the nesting insulator pad. A protective 3/4 oz. FR layer and a soft-knit cover make the Silver Beach a crowd favorite and excellent for guest and youth beds alike.
