

**Save precious resources and look sharp
doing it.**

Washer

A smarter use of water. The simplification of a chore. Better results. 60 recycled water bottles. These are all things that go into the making of a Beko clothes washer.

Redesigned Fascia

The sleek and modern new design of the Beko washer is indicative of the advanced and efficient technology that lies within.

Digital Control Panel

The new design includes a bright and intuitive digital control panel that helps make the Beko washer even easier to use.

RecycledTub™

We use recycled plastic bottles to help support a healthier planet. Our washers feature RecycledTub, which is made from 60 recycled plastic water bottles. Since 2017, we used over 114 million PET bottles worldwide.¹

SteamCure™

Steam introduced at the beginning of the cycle helps pretreat and loosen stains, for smarter, better cleaning.

Ventless Dryer

Besides inventing technology that uses our planet's resources more wisely, Beko strives to make people's lives easier. Clothes that come out of the Beko dryer are clean, fresh and ready to wear, with no ironing necessary.

Redesigned Fascia

Along with the Beko washer, the Beko dryer design has been updated to better reflect the advanced technologies within.

Digital Control Panel

The new design includes a digital control panel that helps make the Beko dryer simple to use even in dim light.

SaniDry and SaniRefresh

New programs use steam and precise temperatures for perfectly fresh and sanitized clothes.

IronFinish

Introducing steam at just the right time and temperature gives you clothes ready to wear right out of the dryer.

ENERGY STAR Most Efficient

Our ventless dryer not only performs well, it's also one of the most efficient on the market.²

Laundry

24" Front Load Washer

Model Number	WFTV10733XC
Style	Front-loading
Capacity cu ft.	2.3
Product Dimensions (H x W xD)	33-1/16" x 23-5/8" x 22-13/16"
Maximum Spin Speed RPM	1400
Variable Spin Speed	Yes
Automatic Temperature Control	Yes
Control	Digital Display
Delay Time	0-24 Hours
Remaining Time Indicator	Yes
WiFi Connectivity + Bluetooth	HomeWhiz
Drum Material	Stainless Steel
Detergent Dispenser	Yes
Door Lock Indicator	Yes
Adjustable Leveling Legs	4

24" Ventless Heat Pump Dryer

Model Number	HPD24414W
Dryer Type	Heat Pump Ventless
Capacity cu ft.	4.5
Product dimensions (H x W xD)	33-5/16" x 23-5/8" x 27-1/2"
Dry Load Capacity	17.7 lbs. / 8 kg
Control	Digital Display
Delay Time	0-24 Hours
Drum Material	Stainless Steel
Silence Level	66 dBA
Automatic Water Drain	Yes
Reversible Drawer	Yes
