Sharper details you can see and hear.

Get more accurate, real-time notifications when motion is detected around your home. Use the Ring App to see what's happening, turn on the lights, speak to visitors with improved noise reduction, and sound the siren when you need to.

The best motion detection on the block.

Pinpoint motion and distance with 3D Motion Detection. Set motion perimeter up to 30 feet away and know exactly when and where someone steps onto your property. With Bird's Eye View, get an aerial view of your yard to see where visitors went or if someone's hanging around.

Works with Alexa.

Connect Floodlight Cam Wired Pro with Alexa for hands-free home monitoring. When your floodlight cam detects motion, your Echo device will illuminate and make an announcement, so you'll always know when someone's there. And if you have an Echo Show, you can also see, hear and speak to anyone captured on camera.

Frequently Asked Questions

What is the difference between Floodlight Cam Wired Plus and Floodlight Cam Wired Pro?
Ring Floodlight Cam Wired Plus includes Live View, Two-Way Talk, Advanced Motion Detection, Customizable Motion Zones, Customizable Privacy Settings, and an easy to use app. Ring Floodlight Cam Wired Pro builds upon all these great features with a new design and advanced features including radar-powered 3D Motion Detection, Bird's Eye View, Bird's Eye Zones, Audio+ for enhanced audio, a 110dB siren, dual-band Wi-Fi and an array microphone that limits sound distortion.

Can I mount Floodlight Cam Wired Pro upside-down on a ceiling or eave?
Yes you can, if you have an existing junction box. Simply follow the instructions in the manual.

What is the benefit of 3D Motion Detection?
3D Motion Detection provides more reliable motion alerts and reduces notifications that may be unnecessary or unhelpful. The radar sensor that powers 3D Motion Detection also has benefits such as: better detection of objects approaching head-on, better able to define detection distance, decreases false positives while still providing timely alerts.

What is Bird's Eye View?
Powered by radar and 3D Motion Detection, Bird's Eye View provides an aerial map view of motion events in front of the camera and clearly shows the path that visitors take when visiting the property giving more context by being able to see where a motion event begins.

What is Ring Protect?
Ring Protect is a comprehensive optional subscription service that lets you review, share and save every video and photo captured by your Floodlight Cam Wired Pro, plus a few extra perks. To compare and learn more about Ring Protect visit ring.com to choose a plan that works for you.
