Stick Up Cam

Smart security anywhere you need it - inside or out.

1080p HD Video
with Color Night Vision

Indoor or
Outdoor

Two-Way
Talk

Motion Activated
Notifications

Easy
Installation

Works with
Alexa

Goes everywhere. Sees everything.

Add eyes and ears inside or out with the versatile camera that goes almost anywhere. With countless placement options and customizable motion settings, you can find your perfect setup for you and your home.

Cover every corner.

Mount it on the side of your garage or on a wall in the living room. Or place it on a flat surface like an entry table or your deck outside.

Works with Alexa.

Combine Stick Up Cam with Alexa for hands-free home monitoring. When anyone triggers Ring's built-in motion zones, your Echo device will illuminate and make an announcement, so you'll always know when someone's there. If you have an Echo Show, you can also see, hear and speak to anyone captured on camera.

Add-Ons

Ring Pan-Tilt Mount for Stick Up Cam

Get a more complete look around your home with the easy-to-install Pan-Tilt Mount that upgrades your Stick Up Cam from a stationary 130° field of view to a 360° pan coverage and 117° tilt coverage for a more complete view of your surroundings.

Voice Assistant

Enjoy hands-free home monitoring with select Alexa-enabled devices. Hear custom notifications and use two-way talk with audio-only Echo devices, and launch video with Echo Show, Fire TV and Fire Tablets.

Ring Chime Pro

Hear notifications anywhere in your home when motion is detected. Plus, amplify all your devices and boost your Wi-Fi network to all your Ring Video Doorbells and Cams.

Frequently Asked Questions

What is the difference between Stick Up Cam and Spotlight Cam?

The main differences between Stick Up Cam and Spotlight Cam are device features, placement and power options. Spotlight Cam is an outdoor-only camera that comes with built-in LEDs. Unlike Spotlight Cam, Stick Up Cam doesn't have built-in lights and can go anywhere indoors or out. All Stick Up Cams and Spotlight Cams are available in battery, plug-in, and solar power options. However Stick Up Cam is also available with Power over Ethernet (Stick Up Cam Elite) so you can connect it directly to your router, whereas Spotlight Cam has an option for hardwired installation so you can connect it to outdoor electrical boxes.

What's the dual power? How do I change the power source?

Stick Up Cam Battery and Stick Up Cam Plug-In have options for dual power. This means that they have primary power sources with a backup power source to keep you connected.

Stick Up Cam (Battery) comes with a Quick Release Battery Pack, and you can purchase the Indoor/Outdoor Power adapter (sold separately) for dual power. With the battery pack inserted, the camera will be powered by the adapter and will use the battery as backup.

Stick Up Cam (Plug-In) comes with an AC Adapter that plugs into standard power outlets, and you can also purchase a Quick Release Battery Pack (sold separately) for dual power. With the battery pack inserted, the camera will be powered by the adapter and will use the battery as backup.
