

# CLEAN AND DRY DISHES PERFECT FOR SMALL SPACES

## 18" Built-in Dishwasher

MDF18A1AWW-White / MDF18A1ABB-Black / MDF18A1AST-Stainless

Perfect for small spaces, this built-in front control dishwasher provides superior cleaning technology combined with a Sanitize cycle that raises the water temperature to at least 150°F to reduce the bacteria found on the plates and glassware. At 52 dB, the quiet wash allows for quiet conversation during the cycle.

### Energy Star Certified

Maximize your energy consumption and save on your bills.

### 24-Hour Delay Start

Schedule your dishwasher to run up to 24 hours in advance.

### Quiet Wash

52 dBA lets you run the dishwasher and still have a conversation in the same room.

### Stainless Steel Tub

Durable stainless steel tub has a premium look and is built to last.

### ELECTRICAL REQUIREMENTS

- This dishwasher is designed for operation on an adequately wired individual 120 V, 60 Hz, 15- or 20-amp fused electrical supply with copper wire only. It is recommended that a time-delay fuse or circuit breaker is used, and that a separate circuit serving only this appliance is provided. If an outlet is used, the outlet should be placed in adjacent cabinet.

### LOCATION REQUIREMENTS

- Install where dishwasher is protected from the elements. Protect against freezing to avoid possible rupture of fill valve. Such ruptures are not covered by the warranty. For winter storage information, see “Storing” in the “Dishwasher Care” section in the user manual.
- Install and level dishwasher on a floor that will hold the weight and in an area suitable for its size and use.

### WATER SUPPLY REQUIREMENTS

- The water supply temperature should be 120°F to 150°F (49°C to 66°C).
- The water supply must maintain water pressure between 20 and 80 psi for sufficient flow.
