E-1230-A

12 channel x 30 Watt Amplifier

► AMPLIFIERS

When you have a system that does it all, you need a workhorse to power it all. The Episode 1230 Amplifier offers bridgeable power to 12 channels and 3 input options, so there isn't anything this amplifier can't handle. And with an auto-sensing option so only the channels you need are powered on, the ES-1230 Amplifier is also 75% more energy efficient than most other brands.

The Multi-Tasker

Does everything but the dishes

- Simple, sleek design with anodized aluminum faceplate
- Bridgeable outputs for a variety of system power needs
- Multiple power activation options

Episode: Real Performance for the Real World. Superior Design and high performance components make up the perfect audio compliment to our Episode Speakers. Designed to give any system a boost, these amplifiers offer the power and sound you need every time. Whether you're powering a subwoofer or need a single source for your audio system, these quality components are the ideal solution for your audio/video needs.

SPECIFICATIONS

Power	30 Watts per Channel RMS at 8 ohms 45 Watts per Channel RMS at 4 ohms
Bridged Power Output	80 Watts per Channel RMS at 8 ohms
Input Sensitivity	35mv for 1 watt out; 200mv for full output, 30 watts, with all level controls set to max.
Input Impedance	10,000 ohms
Frequency Response	5 Hz - 85 kHz
Overall Voltage Gain	38 dB
Comparable Distortion (Unbridged)	0.03% THD 20Hz to 20 kHz (8 ohms) 0.06% THD 20 Hz to 20 kHz (4 ohms)
Distortion (Bridged)	0.20% THD 20 Hz to 20 kHz (8 ohms)
Finished Dimensions	4"H (with feet) x 16.5"W x 14.5"D (3.4"H without feet)

Product Warranty

Episode Amplifiers have a 2-Year Warranty. This warranty includes parts and labor repairs on all components found to be defective in material or workmanship under normal conditions of use. All warranty claims must be made through an authorized Episode dealer.
