

FEATURES

COOLTOUCH TEMPERATURE REGULATING FABRIC

Special conductive yarns actively move heat through the fabric to maintain a cool, comfortable sleeping environment all night long.

CERTIPUR-US HD COMFORT LAYER

Gives your body the support it needs for proper spinal alignment and is made with open cell technology for lasting comfort that sleeps cool.

GRAPHENE MEMORY FOAM

Graphene infused memory foam regulates temperature for deeper sleep by drawing excess heat away from your body while absorbing pressure so you can sleep undisturbed without tossing and turning.

7 SERIES WRAPPED COILS

7-Series coil system: extra support and added conformability for proper spinal alignment and no motion transfer. Tri-Zoned for back support.
