

To do what we can to protect our home community of Stillwater, we are temporarily closing the doors to the KICKER Visitors Center and Museum, until further notice.

Stillwater Designs and KICKER itself, including orders and shipping, will continue to run under normal business operations.

Thank you for your patronage and patience, and please plan to visit the KICKER Visitors Center when it opens again. If you want to visit a **local KICKER dealer (/dealer-locator)** in your area, we recommend calling ahead to confirm store hours and availability.

CX1200.1 Mono Amplifier

\$349.95 USD

ADD TO CART

The CXA1200.1 Mono Amplifier is built for affordable power and performance, thanks to an optimized circuit layout and the high-grade internal components.

Mono Monster

This mono CX-Series Amp is now one-ohm stable, giving you even more wiring options for your system! Using a Class-D power plant, the CXA1200.1 features a variable bass boost with KickeEQ™, giving you as much as a 6dB of extra bump with a simple turn of the optional CXARC Remote Bass Controller (/CXARC-Remote-Control-for-Kicker-46CX-Series-Amps). A powerful 12dB crossover and 24dB subsonic filter is included, letting you quickly tune your system to perfection.

CX-Series Amplifiers accept up to 40 volts (400 watts) of speaker-level input signal. This kind of flexibility both makes line-out converters unnecessary and optimizes your sound quality at the same time!

Use the full-range outputs to expand your system with other bass amps, or add a full-range amp to complete your system.

This CX.1 Amplifier delivers as much as 1,200 watts into one bass channel. See below for more details.

- Efficient Class-D amplifier
- Three-second turn-on/off delay to eliminate unwanted interference
- Variable 12dB crossovers provides control to dial in perfect sound
- KickEQ™ 6dB variable bass boost for those additional low frequencies
- 24dB subsonic filter for protection from potentially damaging frequencies
- FIT+™ (Fail-safe Integration Technology-PLUS) means it works with nearly every radio
- Accepts up to 40-volt input signal
- Small footprint for easier installation
- Compatible with CXARC Remote Bass Control (/CXARC-Remote-Control-for-Kicker-46CX-Series-Amps)
- Vertical mounting hardware included for another unique look

Specifications

MODEL

CXA1200.1

Power (watts/ch) 4 Ohm

600x1

Power (watts/ch) 2 Ohm

1200x1

Power (watts/ch) 1 Ohm

1200x1 +/-10%

CXRC Remote Bass Capable (sold sep.)

yes

Dimensions (in, cm): (all models 2-3/8, 5.9H x 6-3/4, 17W x ...L)

12, 30.6

Frequency Response (Hz):

25-200Hz

Input Sensitivity:

125mV-5V (Low Level)

1V-40V (High Level)

Signal-to-Noise Ratio:

95dB

Active Crossover:

Variable Lo-pass 50Hz-200Hz, 12dB/octave

Subsonic Filter:

25Hz @24dB/octave

KickEQ™ Boost

Variable 0-6dB @40Hz
