#### Planning notes

Door hinge not reversible.  
 The front of the appliance extends 1 7/8" from the cabinet front.  
 The outer edge of the door handle extends 3 11/16" (94 mm) from the furniture cavity.  
 Consider the overhang, incl. the door handle, when planning to open drawers next to the appliance.  
 When planning a corner solution, pay attention to the 90° door opening angle.  
 To achieve the 21 5/8" installation depth, the connecting cable needs to follow the slanted edge on the lower right hand corner of the housing.  
 The electrical outlet needs to be planned outside the cut-out niche.
