- **Cool-Touch Fabric**
Special conductive yarns actively move heat through the fabric to maintain a cool, comfortable sleeping environment all night long
- **Graphene Memory Ice**
Regulates temperature for deeper sleep by drawing excess heat away from your body while absorbing pressure so you can sleep undisturbed without tossing and turning
- **Graphene Memory Foam**
Highly conductive graphite memory foam offers cool and supportive sleep with little to no motion transfer
- **Hi-Definition Transition Layer**
Enhances the buoyant, weightless feel of the mattress
- **High Density Orthopedic Support Core**
Pressure relief and contouring is delivered with our stable high density, Certipur-US certified foam core to provide support and comfort.
