# LIVERPOOL

Inspired by industrial design, LIVERPOOL collection is available for living and dining room.

### Strong legs

Legs are made of two wood board, circled by a steel strip. It is finished by flat rivets on the bottom end.

### A double frame

Wood board is inserted into a thick frame. A thinner second frame finishes this collection design.

### In the dining room

# YORK

*Inspired by industrial design,  
YORK collection is available for living and dining room.*

## *Unique legs*

York's originality comes from its legs : finished by large bended steel strips, linked together.

## *Focus on wood*

A thick wood top comes on the steel structure. Wood is enhanced here, we can see all its details.

## *On dinner time ...*

# BARN WOOD

*Barn wood mirror  
available on page 56*

## *Yes to imperfections!*

Imperfections are the essence of barn wood.  
Each board is unique : every hole, every mark, every scratch  
tells us about his past.

# WALLS

## *Why barn wood?*

We are particularly committed to BARN WOOD.

Recycling process, and transformation are now a priority in today's ecology.

We only use Canadian barn wood. There by, we encourage local economy, limit deforestation and reduce our shipping distance and our impact on environment.

Moreover we like giving a second life to wood. Each board is unique since it went through the years, bad weather, and now it finds his place in our home and will live with our family.

More than just being a product or a material, Barn wood is a piece of history, and a step towards eco-responsibility.

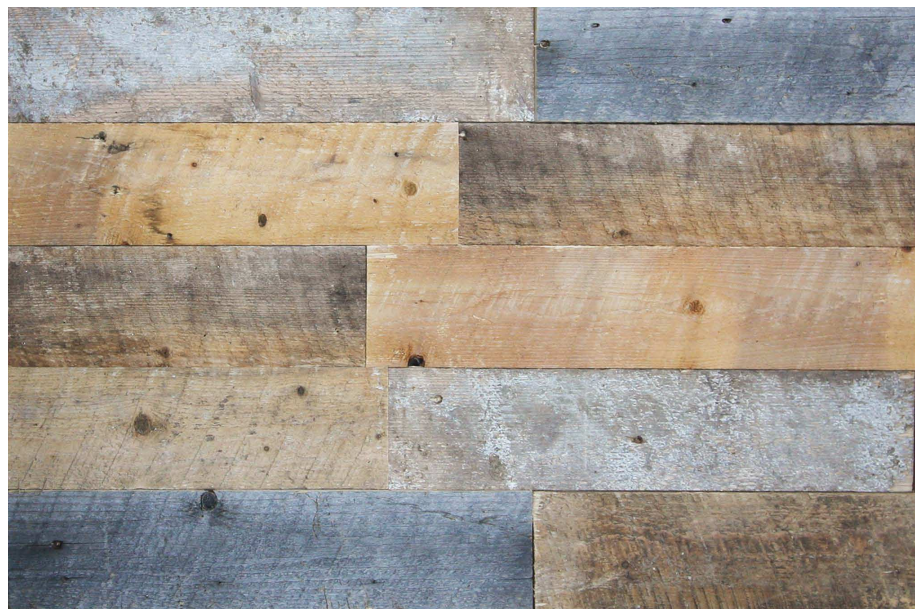

*Liverpool end table  
in natural barn wood  
available on page 12*

*Splited, edged and cleaned, we guarantee a clean and quality wood.*

*Each board air dries naturally at least for 2 years in order to get a 20% humidity degree.*

*This humidity degree guarantee a perfect balance between wood and the ambient air of our houses.*

## *Available colors*
