

CHEERS

FEATURES AND BENEFITS

Leader in Motion Upholstery

By Focusing on •Design •Value •Comfort •Tailoring •Quality •Service

FRAME

- Kiln dried hardwood and furniture grade laminate.
- Corner blocked nailed, glued, and screwed.
- Heavy gauge seat and back springs.
- Padded outside arms and outside backs fully encased with MDF.
- NO OSB AND NO PARTICLE BOARD.
 - **Benefit:** extended life, increased comfort long lasting appearance.

FOAM

- Seat cushions are constructed from 2.0 polyurethane foam.
- Backs and arms are filled with 100% Polyester Holofil Fiber. All foam and formulas are controlled in-house and poured in-house.
- All backs and arms are bagged and baffled.
- NO RECYCLED MATERIALS ARE USED.
 - **Benefit:** Less settling of fibers, prevents migration, consistency of look and comfort, longer life and quick recovery time.

MECHANISM

- ManWah owned RMT Mechanisms.
- Second largest mechanism manufacturer in the world.
- Minimum 360lb Heavy Duty Mechanism tested to 35,000 cycles.
- 20% more steel than competitor mechanisms.
- Base rails use 4.5mm angle iron versus 3mm stamped.
 - **Benefit:** More rigid product along with strength and longevity of performance.
- Every mechanism is inspected and operated before being shipped.

TOP GRAIN LEATHER

- T.G. USED ON ALL FRONT FACING SURFACES.
- Leather patches on all stress point corners for added protection.
- Two-tone effects add depth and richness.
- Natural scars and scratches highlight the authenticity.
- Suppleness yields exceptional tailoring.
