Thank you for purchasing a New Classic Furniture collection.
We hope you enjoy it as much as we did creating it.

IMPORTANT CARE NOTICE ON FAUX FUR FABRICS:

Faux Fur fabrics have a long nap with high pile yarns. Some of these yarns will loosen from the base cloth and “shed” when you first receive and use your Faux Fur upholstery/ pillows. This is normal and common. Lightly vacuum or brush your Faux Fur to remove loose fibers during the first several weeks of ownership.

IMPORTANT CARE NOTICE ON VELVET FABRICS:

The high pile yarns on velvet upholstery fabrics are specifically known to flatten during use, but respond well to damp fluffing and brushing, a technique used by professional cleaners. The 3 points noted above will work well to maintain velvet fabrics.

IMPORTANT CARE NOTICE ON HIGH PILE FABRICS:

Vacuum your upholstery once a week with a brush attachment. Keep upholstery away from heat and moisture and never expose upholstery to direct sunlight as fading and discolorations may occur. If there is a spill on your upholstery, use a clean and super absorbent cloth or paper towel to soak up excess liquid. Never rub the spill that will force liquid deeper into the high pile fibers; instead leave the cloth in place until the liquid is absorbed; then allow to air dry and brush against the nap to fluff the fibers. Professionally clean your upholstery once a year.

CARING FOR YOUR DINING CHAIR FABRICS:

Many fabrics, such as chenille and velvet, have a yarn direction called nap that may also use pile yarns. Nap fabrics and pile yarns can get compressed during shipment, and will compress after personal use on seats and inside backs. When compression of yarns occurs, the fabric may appear to be shaded, matted, or marked, but it is not damaged or harmed in any way. This is a natural and expected reaction of pressure on nap fabrics and pile yarns.

IMPORTANT:

Vacuum your upholstery once a week with a brush attachment. Keep upholstery away from heat and moisture and never expose upholstery to direct sunlight as fading and discolorations may occur. Professionally clean your upholstery once a year.

Your fabric has a cleaning code that will guide you on proper care. If you cannot locate the cleaning code on the labeling, please refer to our website or email us at sales@newclassicfurniture.com

Code "W"

Code "W" is used on fabrics that should be cleaned with water based cleaning agents. Spot clean using foam from only water based cleaners, or non-solvent cleaning products. Apply foam with a soft brush in a circular motion, and vacuum when dry.

Code "S"

On fabrics with an "S" code, use a mild water free cleaning solvent or dry cleaning product. Make sure the room is well ventilated when using.

Code "W-S"

Code "W-S" fabric can be cleaned with either water or solvent based products. Use a mild solvent, an upholstery shampoo, or the foam from a mild detergent.

Code "X"

Clean this fabric by vacuuming or gently brushing only. NEVER use any cleaning agents at all. Any cleaning product whether water or solvent based may cause staining, shrinkage or distortion of the fabric surface pile.

General Guidelines

- Regularly clean your fabric by vacuuming or light brushing.**
- Test cleaning product in an inconspicuous area first to guard against color bleeding or fabric shrinkage.**
- Call a professional when your upholstery needs overall cleaning.**

Upholstery & Leather Care Instructions

CARING FOR NAP FABRICS AND PILE YARNS: To “bloom” or plump pile yarns to their original state, please follow the directions below.

1. Using an upholstery brush with soft, flexible bristles, brush the fabric against the grain, to lift the pile and yarns up and away from the fabric; depending on the fabric and yarn type, a second brushing may be required.
2. If you own a small hand-held, or commercial steamer, next gently steam the affected areas of the fabric, using small bursts of steam that will “bloom” or plump the pile and yarns. Never touch the steamer directly to the fabric.
3. If your steamer has a brush attachment, follow the step above by brushing against the grain of the fabric to lift the pile and yarns.

LEATHER CARE

New Classic uses only full top grain pigmented leather. Your fine leather furniture may contain variances of shading, color, and texture giving leathers their unique personalities, and are not considered as imperfections.

Pigmented (Protected) Leathers Cleaning Code is W. Scars and branding marks are natural markings and are not considered flaws.

Do not place your furniture directly next to a heating source. Do not place your furniture directly next to a window, under a skylight, or in a sunroom. All leathers are subject to fading over time.

The application of a leather protection cream will improve the leather's resistance to staining and soiling, especially on seats, arms and backs.

Wipe your leather with a soft, dry cloth to remove dust. Fully clean your furniture with a soft cleaner and re-protect with a protection cream every six months to remove dirt and grime as well as gradual accumulation of body oils. For oil-based stains, use a leather de-greaser.

Do not use any other products not recommended for leather as they may damage the leather's surface.
