# LINER VENTILATION

## DIMENSIONAL RENDERINGS

- ✓ The custom hood must be constructed to fit the size and shape of the liner (power pack). See chart and illustration below for details.
- ✓ Since the liners mounting holes are located on the front and rear sides, plan to install a wood frame in the front and sides to support the liner using the screws provided in the parts bag.

SIZE	TOTAL WEIGHT	POWER PACK WIDTH (A)*
36"	66 LB.	34 7/16"
42"	73 LB.	40 7/16"
48"	80 LB.	46 7/16"

\*Includes rivet heads.

- ✓ The grill you are using must be placed at least 36" from the ground
- ✓ The bottom of the chimney or insert, must be at a minimum of 36" from the grill cooking surface, or 6' from the ground
- ✓ Flue extensions allow for installations into ceilings from 8' to 12' in height

**Important Note to Installer:** This file is not intended to replace your Owners' Manual which contains specific safety requirements and consumer guidelines. Please refer to your Owners' Manual prior to installing or operating your hood.
