

Midea

make yourself at home

U.S SINGLE SLIDE-IN RANGE

PROJECT SUMMARY

KEY DESIGN FEATURES

Powerful convection

Super 6.1 cu. ft. capacity

Multifunctional cooktop

Grand view window

Cooling door system

Midea IOT connectivity

Storage drawer

Backlit knobs & blue interior

Super 18000BTU dual
power burner

Swift boil

Easy steam clean system

Edge-to-edge Cooktop Design

POWERFUL CONVECTION

Heat circulation ensures the same temperature at each corner in the cavity which gives the food a more delicious look and taste - perfect for cooking everything for your family or gatherings.

The image shows the interior of a light blue enamel oven. The oven door is open, revealing a central vent with a decorative, sunburst-like pattern. The interior walls are lined with a dark, textured material, likely insulation. The oven is set against a dark background.

—
LIGHT BLUE ENAMEL IS
INDUSTRY UNIQUE.

SUPER 6.1 CU. FT. CAPACITY

Designed to provide increased capacity to accommodate the largest dishes for families and gatherings

MULTIFUNCTIONAL COOKTOP

ALL-IN-ONE

Integrated cooktop + oven ventilation creates a unique & modern look for the Midea brand.

Patent Pending

Utilizing the full 30" cooktop maximizes cooking space and creates a strong & professional look. Enhancing the stylish look of hobs, cast iron pan supports provide maximum stability, enabling the use of any size pots and pans without them tilting or sliding.

GRAND VIEW WINDOW

Gives you a full view into the oven so you can easily check on the cooking progress.

COOLING DOOR SYSTEM

- **SLEEK DESIGN**

Thanks to advanced technologies, door does not have vents on the front area enhancing a sleek design. The three layer inner glass keeps heat inside the oven and insulates the door exterior surface, so it is not hot to the touch even during the cooking process.

- **SELF-BALANCING DOOR**

Door maintains its position from horizontal to almost vertical to avoid undesired door falling or closing.

MIDEA IOT CONNECTIVITY

• CONTROL ON-THE-GO

Imagine a world where all devices are connected and can communicate and interact freely with others. Now, with IoT integration, you can monitor the temperature of the oven while you are enjoying time with your family.

• MIDEA CLOUD MENU

IoT will select the right cooking power and time for you, just select a menu and press start to get your meal underway. Impress your family and friends when it comes out perfectly.

• TEMPERATURE PROBE

Easily check the cooking progress from your phone - the probe measures the temperature and connects to your app. When the probe measures the desired temperature, the oven will automatically shut off so you have a perfect roast every time.

STORAGE DRAWER

BACKLIT KNOBS

- **ROUND KNOBS**

LARGE CIRCULAR KNOBS MAKE A STATEMENT, ALLOWING MIDEA BRAND TO VISUALLY STAND OUT IN THE MARKET.

- **FINE TEXTURES**

Precise details like spin finish and micro grip; enhance both the look and also the function of the knobs.

- **USEFUL COLOR**

USING MULTIPLE INK COLORS ON THE CONTROLS CREATES VISUAL HIERARCHY OF THE INFORMATION DISPLAYED TO THE USER.

- **BACKLIT KNOBS**

MIDEA BLUE LEDS PORTRAY PRECISION & TECHNOLOGY, WHILE ALSO REINFORCING THE UNIQUE ROUND SHAPE OF THE KNOBS.

DUAL RING POWER BURNER

= 57,000BTU (5 Burners Total)

= 18,000BTU (Single Super Burner)

SWIFT BOIL

SUPER POWERFUL & SWIFT BOIL

Super powerful & swift boil advanced technology can make 5L of water boil in a few minutes and provides more power for various cooking needs.

EASY STEAM CLEAN SYSTEM

Pour a cup of water on oven bottom and the cycle will convert the water into vapor to release minor cooking spills.

The advanced structural design and exquisite craftsmanship, make oil stains and food residue hidden in the cavity.

PYROLYTIC SELF-CLEANING

An automatic process during which the oven will be heated up to 450°C and the residue inside the cavity is incinerated to ash. Simply clean the cavity with a damp cloth, making arduous scrubbing and abrasive cleaners a thing of past.
