- **"Works With" Google Assistant & Alexa**

DESCRIPTION

LG's best HD TV.

See detail, color and clarity in your scenes. LG's HD TV (720p) is bright and beautiful with its LCD display. The processor optimizes picture quality. And smart features work with your connected home.

KEY FEATURES

Quad Core Processor

Processing power upgrades every scene.
Instant and intelligent. Our Quad Core Processor paints images, action and color in the best possible light from source to screen.

Active HDR (HDR10, HLG)

Great scenes keep getting better.
Automatically elevate the beauty of your favorite scenes. Active HDR supports a wide range of formats for scene-by-scene picture adjustment, including HDR10 and HLG.

webOS

Find your entertainment with ease.
Entertainment access made easy. LG's fan-favorite webOS platform delivers streaming simplicity. Featuring streaming apps like Netflix, Hulu, Sling, Prime Video and more. A huge library of content and streaming services are all there at your fingertips.

LG Channels

See more, stream more with LG Channels.

LG UHD TVs are bringing more entertainment options than ever. LG Channels deliver free access to over 300 IP streaming channels offering movies, shows, breaking news, sports, comedy and more — integrated alongside over-the-air channels and channel guide.

"Works with" Google Assistant

TV control through your Google Assistant.

Command your TV from other devices. If you have Google Home speakers or the Google Assistant built into other devices, you can control your LG UHD TV from any room in the house — change volume, select modes and more.
