ALL-NIGHT COOLING
POWERED BY

1

Reactex® System

Serta's exclusive Reactex® System consists of three layers of cooling technology. Each cooling layer has more cooling capacity than the previous layer, so heat is pulled away from your body and deeper into the mattress. The result is cool, comfortable sleep all night long.

2

CustomFit™ HD Memory Foam

Premium, high density memory foam conforms to your body for comfortable support all night long.

3

EverCool® Fuze Gel Memory Foam

A fusion of cooling gel and premium memory foam, this comfort-inducing combination cradles you and helps cool you in a substantial, pressure-relieving embrace.

4

1025 Hybrid Support™ System with BestEdge® Foam Encasement

In this advanced innerspring system, individually wrapped coils work independently to conform to every curve of your body and provide durable support.

1

Reactex® System

Serta's exclusive Reactex® System consists of three layers of cooling technology. Each cooling layer has more cooling capacity than the previous layer, so heat is pulled away from your body and deeper into the mattress. The result is cool, comfortable sleep all night long.

2

Deep Reaction® Max Gel Memory Foam

This highly-dense memory foam has both cushioning and conforming qualities for comfortable deep-down support.

3

CustomFit™ HD Memory Foam

Premium, high density memory foam conforms to your body for comfortable support all night long.

4

Serta Micro Hybrid Coil™

This is a unique layer of micro-coils designed to work in sync with the memory foam layers around it. As you lie down, these coils closely react to every contour of your body, aiding the transition between relaxing comfort and all-night support.

5

1025 Hybrid Support™ System with BestEdge® Foam Encasement

In this advanced innerspring system, individually wrapped coils work independently to conform to every curve of your body and provide durable support.

 REACTEX®

1

Reactex® System

Serta's exclusive Reactex® System consists of three layers of cooling technology. Each cooling layer has more cooling capacity than the previous layer, so heat is pulled away from your body and deeper into the mattress. The result is cool, comfortable sleep all night long.

2

Peak Support™ Ultra HD Memory Foam

Premium, ultra-high-density memory foam provides steady support, so you don't sink too far into your mattress.

3

CustomFit™ HD Memory Foam

Premium, high density memory foam conforms to your body for comfortable support all night long.

4

EverCool® Fuze Gel Foam

A fusion of cooling gel and foam, this special blend promotes cooling by increasing airflow and dissipating heat.

5

Serta® Foam Core

The Serta® Foam Core provides durable support for any sleep position. With consistent support from edge to edge, you'll be comfortably supported all night long.
