### (CHART B)

| SPEED | CFM @ 0.1" S.P. |          |       |
|-------|-----------------|----------|-------|
|       | M600            | WHM300 * | M1200 |
| 1     | 240             | 240      | 420   |
| 2     | 300             | 300      | 645   |
| 3     | 500             | -        | 865   |
| 4     | 625             | -        | 1015  |

\* The WHM300 is a wiring harness that when used with the M600 blower (sold separately) will disable blower speeds exceeding 300 CFM.
