

SOUNDBAR MOUNT

FITS MOUNTED TVS 32" - 90"

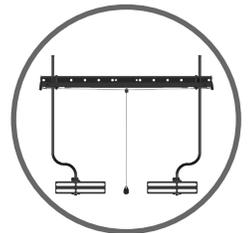

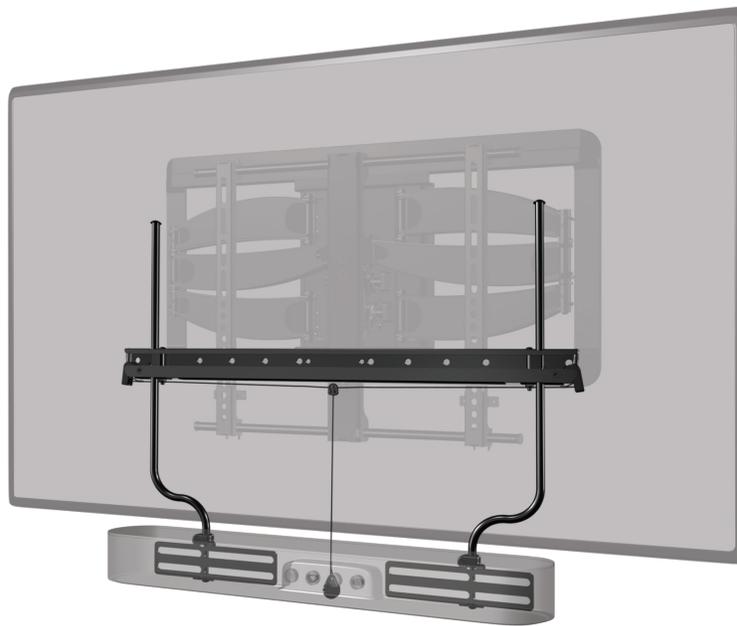

The SANUS SASB1 soundbar mount attaches to the back or bottom of soundbars for broad compatibility and places the soundbar directly under the TV screen for a convenient and stylish setup. The included depth-and height-adjustability allows the soundbar to be positioned flush with the bottom of the TV for a clean look, and also provides space for up-firing speakers if needed. Compatible with a large range of TVs and TV mounts, this mount supports most soundbars up to 20 lbs. When used with a full-motion TV mount, the soundbar moves with the TV for an optimal listening experience.

Seamlessly integrates soundbar with mounted TV

Post-install height adjustment for an ideal fit between soundbar and TV

All hardware included and no drilling required

Depth adjustability allows for soundbar to be positioned flush with TV for a clean look

Attaches to back or bottom of speaker for broad compatibility with most soundbars up to 20 lbs.
