

Technical Specifications

Speed	33, 45 (electronic speed change)
Motor control system	Precision generator
Platter	10.4 kg, TPE damped
Platter puck	405 g
Main bearing	Ceramic (ball/plate), magnetically decoupled
Tonearm	10" single-pivot, alu with SME headshell
Effective arm length	254.8 mm
Overhang	16 mm
Effective arm mass	15.5 g
Suitable cartridge mass	4 - 10 g, several counterweights included
Tonearm cable included	Pro-Ject Connect it 5P-CC
Power supply	16 Volts DC/1600 mA included
Standby power consumption	< 1 Watt
Dimensions	475 x 195 x 354mm (WxHxD)
Weight	23 kg net
