

Installation Guide and Users Manual

This product can expose you to chemicals including nickel, which is known to the State of California to cause cancer, and birth defects or other reproductive harm.

For more information go to www.P65Warnings.ca.gov.

Even though the materials used in all ZLINE
Kitchen and Bath products conform to all
federal government regulations and all
national product standards, California's
Prop 65 requires all businesses to provide
a "clear and reasonable warning" if one or
more listed chemicals may be present in
the product, even if that chemical is
present in trace quantities

Professionally design your home with ZLINE's Designer Kitchen and Bath Accessories. With a wide selection of accessories available, you can perfectly customize your kitchen and bath space to your style. The ZLINE Kitchen and Bath Accessories come in our specialty Chrome, Brushed Nickel, Gun Metal, Matte Black, and Polished Gold finishes for you to expertly coordinate and complete your kitchen and bath collection. With industry-leading resistance to wear, corrosion, and tarnish, the premium finishes on our kitchen and bath accessories are designed to shine and built to last.

#### SAFETY INSTRUCTIONS

#### Prior to Installation

- Make sure that the cold and hot water lines are turned off.
- Wrap all threaded connections with plumber's tape. Always wrap in a clockwise direction.
- Cover your drain to avoid losing parts.
- Do not disassemble the main faucet body, as it has been installed and commissioned correctly and precisely before delivery to the factory.
- To keep the faucet from jamming, flush the water pipe before installation.

Operating conditions: Working pressure at 0.05-1.0 MPa (including cold and hot water pressure) with applicable water temperature: 39.2°F - 194°F.

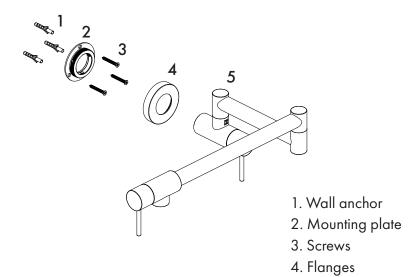

#### **Installation Preparation**

- 1. Shut off the water and let the water in the current faucet drain.
- 2. Assemble needed tools. The tools needed for each installation are included at the beginning of each section.
- 3. Loosen the hardware that keeps the current faucet in place. Remove faucet.

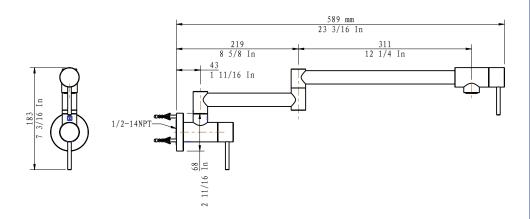

#### Care and Maintenance

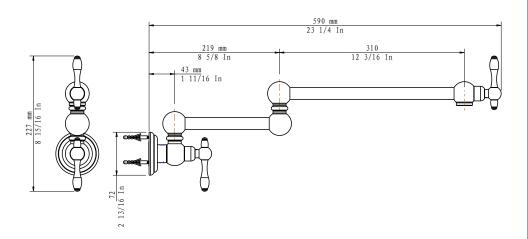

To keep the product clean and shining, follow the steps below:

- 1. Rinse clean with water and dry with a soft cloth.
- 2. Do not clean with soaps, acid, polish, abrasives, or harsh cleaners.
- 3. Do not use cloth with a coarse surface.
- 4. Unscrew the aerator and clean when necessary.
- If soldering the water connections when installing the faucet, remove the O-rings, cartridges, and washers before applying any heat.
- Protect your eyes when cutting or soldering.
- Do not over tighten screws/nuts. Finger tighten, then use a wrench/Philips-head screwdriver to tighten the fixing screw/nut until snug.
