NOTES

Elegant look and plush feel with biscuit-tufted back cushion
Arms have distinctive sloped design with buried welt and cross-stitching
Built to last with our DualFlex Spring System—sturdy steel ribbons attached to flexible coils that offer a wide range of motion and durability
Power controls on both sides of the sofa allow you to independently adjust the headrests and recline for a personalized sit
Separate home buttons on both sides of the sofa returns the headrests and footrests to their original positions with one touch
Attached seat and back cushions ensure a comfortable sit that will last
High-density cushions consist of a high-resiliency, high-density polyurethane foam core
Durable leather upholstery holds up in the most demanding environments
USB port built into power control for convenient charging
Center console stores remotes, magazines, and other personal items
Two beverage holders keep refreshments close at hand
Power controls on both sides of the loveseat allow you to independently adjust the headrests and recline for a personalized sit
Separate home buttons on both sides of the loveseat returns the headrests and footrests to their original positions with one touch
Power controls on each side of the loveseat independently adjusts the headrest and recline for a personalized sit
Separate home buttons on each side of the loveseat returns the headrest and footrest to their original positions with one touch
USB port built into power button for convenient charging
Offers a smooth gliding motion as you sit
Biscuit-tufted back for unique look and plush feel
A power control independently adjusts the headrest and recline for a personalized sit
A separate home button returns the headrest and footrest to their original positions with one touch
The power control allows you to independently adjust the recline and headrest.
A separate home button returns the headrest and footrest to their original positions with one touch.
A USB port is included on the power control for powering electronics.
Zero draw technology only uses power when the USB port is in use.
