

MRX-30 | ADVANCED SYSTEM CONTROLLER

Advanced Network System Controller

OVERVIEW

The powerful MRX-30 is the flagship processor for the Total Control system. It delivers rock-solid control and automation for residential and commercial installations and provides instant two-way communication with the family of Total Control user interfaces.

- Powerful quad-core processor
- Primary processor for IP, IR, RS-232, sensor, relay and 12V
- Provides two-way control of Total Control and compatible third-party devices
- Stores and executes complex control and automation commands
- Two programming options – Accelerator 2.0 for quick, template-based custom graphics and TC Flex 2.0 for completely customized graphics
- Capable of off-site programming
- Integrates with Amazon Alexa and Google Assistant for voice control
- Features signature Total Control front panel with LED lighting, rack mountable

HIGHLIGHTS

Relay	Six relays configurable to NO, NC or COM
12V Out	Four 12V outputs programmable to turn on/off, momentary toggle
Sensor	Six programmable sensor ports, compatible with all URC sensors
Network	RJ45 10/100/1000 (gigabit) Ethernet port
IR	Twelve 3.5mm IR emitter ports with variable output level
RS-232	Six RS-232 Serial ports (TX, RX, GND)
Indicator LEDs	Power and Ethernet

SPECIFICATIONS

SKU

MRX-30, UPC 656787-377301

System

Total Control®

Professional programming required

Compatible User Interfaces

TDC-9100, TDC-7100, TKP-9600, TKP-7600, TKP-5600, TKP-5500, TKP-100, TRC-1080, TRC-820

In the Box

Controller, Ethernet cable, 12 IR emitters, AC adaptor, power cord, adjustment tool, rack mount ears

Dimensions

17" W x 3.75" H x 8.5" D

Weight

6.2 lbs.
