Selecting/Accessing a menu	Touch the desired entry or value in the display.
Scrolling	Swipe across the screen. To do this, place a finger on the touch display and swipe it in the direction you want.
Exiting a menu level	Tap \bigcirc . Alternatively, tap the higher-level menu name within the menu path.
	Entries made before this which have not been confirmed with OK will not be saved.
Entering numbers	You can enter numbers by scrolling through and touching the roller, or by using the numeric keypad.
	Number roller:
	Swipe the roller up or down until the value you want is displayed centrally in orange. Confirm with <i>OK</i> .
	Numerical keypad:
	Touch the orange colored value in the center and keep your finger on it until the nu- merical keypad appears.
	Select the value you want: As soon as you enter a valid value, OK turns green. Use the \triangleleft arrow to delete the last entered number.
	Confirm with OK.
Entering letters	Names are entered using a keyboard. It is best to select short, memorable names.
	Tap the letters or characters you want.
	Tap Save.
Displaying the context menu	When you are in certain menus, a context menu can be displayed, e.g., for configur- ing drinks.
	For instance, you can tap the name of a drink and keep your finger on it until the context menu opens.
	To close the context menu, touch an area of the display located outside of the menu window.
Help display	Context-sensitive help is available for certain functions. Help is shown in the display.
	Tap Help to display information in text and pictures.

Drinks overview

Coffee drinks

- Ristretto is a concentrated, stronger espresso. It is prepared with the same amount of coffee as for an espresso but with a lot less water.
- Espresso is a strong aromatic coffee with a thick, hazelnutbrown colored froth – known as the crema – on top.
- the increased amount of water ature) and the roast of the beans.
- Lungo is a coffee with significantly more water.
- Long black is made with hot water and two shots of espresso.
- Caffè Americano consists of equal proportions of espresso and hot water. The espresso is - Chai Latte is a tea speciality made first, then the hot water is with milk. dispensed.

Coffee drinks made with milk

- Cappuccino consists of approx. 2 thirds milk froth and
- 1 third espresso. Latte macchiato consists of 1 third each of hot milk, milk **Pot function** froth, and espresso.
- Caffè latte consists of espresso and hot milk.
- Cappuccino Italiano has the same proportions of milk froth Your coffee machine may be difand espresso as a capuccino. | ferent from the illustrations in the The difference is that the espresso is added first and then the model. the milk froth.
- Espresso macchiato is an espresso with a small amount of milk froth on top.

- Flat white is a special variety of cappuccino that contains significantly more espresso than milk froth for an intensive coffee aroma.
- Café au lait is a French style of coffee consisting of coffee and milk froth. Café au lait is usually served in a bowl.

Making drinks

Using the milk flask

Milk is not cooled in the milk flask. Therefore, place the milk flask in the refrigerator if you are not going to use milk for a while. Good milk froth can only be made with cold can be made in this way. milk (< 50°F/10°C).

Fill the milk flask with milk up to a maximum of 3/4" (2 cm) below the rim.

machine until it clicks into place. You can now make drinks with milk.

Making tea

- Hot water is heated to the optimum tem-
- perature for different types of tea.
- Place the tea filter or the tea bag in the tea cup.
- Place the tea cup under the main dis-
- Select the type of tea on the display.
- Hot water will be dispensed into the cup. Remove the tea filter or tea bag when the desired brewing time has elapsed.
- **Tip:** You can use the TeaTimer function to start a kitchen timer when making tea (see the operating instructions).

Pot function

You can make several cups of coffee or tea one after the other automatically with the pot function (maximum of 1 I). Up to 8 cups

Preparing the pot

The drinks menu is displayed.

- Place a sufficiently large container under the main dispenser.
- Select the required pot function.
- Select the number of cups you want (3 to 8).
- Follow the instructions in the display.

Expert mode

In Expert mode, vou can allocate a bean type temporarily and change the portion size while the drink is being made. Expert mode must be activated for this (in the pulldown menu, the word Expert Mode is highlighted in orange).

The setting will **not** be saved and will only apply to the current drink.

Allocating bean containers temporarily

- Tap the top edge of the screen and open the pull-down menu.
- Now select the bean container containing the beans you want to use for the current drink.
- To close the menu window, drag it back up to the top.
- Now start making the drink.

Changing the portion size

The portion size can only be changed during the individual preparation stages.

Tap the bar and adjust the indicator (small triangle) as you wish.

Please observe the detailed information on cleaning and care in the operating instructions. Carefully clean the coffee machine regularly.

Recommended frequency	What do I have to clean/maintain?
Daily	- Milk flask and lid
(at the end of the day)	- Milk valve
	- Water container
	- Drip tray cover
	- Drip tray and grounds container
