SLB-034

SLM-034

**Only used when installing SLB Interface brackets.

****Used when mounting surface of projector is recessed.

Installation:

⚠ **WARNING: OVERTIGHTENING OF SCREWS CAN DAMAGE PARTS AND LEAD TO SERIOUS PERSONAL INJURY AND DAMAGE TO EQUIPMENT!** DO NOT over tighten screws when installing Interface bracket.

NOTE: Step 1 is only required when installing an SLB Interface bracket. If an SLM bracket is being installed proceed to step 2.

1. Screw four thumb screws onto four 10-24 x 5/8" Philips pan head screws. DO NOT fully tighten thumb screws at this time.
2. Turn projector upside down.
3. Place three, 1/4" spacers over three threaded inserts in bottom of projector.
4. Place Interface bracket onto projector, aligning spacers and mounting holes.

Continued

5. Secure Interface bracket to projector, using three Philips flat head screw and flat washers.

Version #2 install with off set bottom:

1. Screw four thumb screws onto four 10-24 x 5/8" Philips pan head screws. DO NOT fully tighten thumb screws at this time.

2. Turn projector upside down.

3. Place 1/4" spacer over front threaded insert and two, 1/2" spacers over two rear threaded inserts in bottom of projector.

4. Place Interface bracket onto projector, aligning mounting holes and spacers.

5. Secure Interface bracket to projector using, M4 x 12mm Philips flat head screw in front and two M4 x 16mm Philips flat head screws in rear of projector.

NOTE: Security screws can be substituted when mounting Interface bracket to projector by using the parts and installation instructions in the All-Points Security Kit.
