- Use of furniture polish is not necessary. Should you choose to use polish, test first in an inconspicuous area.

## SOIN / ENTRETIEN

### Soin / Entretien

- Lors de l'époussetage, utilisez un chiffon doux et propre qui n'égratigne pas la surface.
- Il n'est pas nécessaire d'utiliser du poli à meuble. Si vous décidez d'utiliser du poli à meuble, veuillez d'abord en faire l'essai dans un endroit moins en évidence.
- L'utilisation de solvant de quelque sorte sur votre ameublement peut endommager le fini.
- Ne jamais utiliser d'eau pour nettoyer votre ameublement car cela peut endommager le fini.
- Utilisez toujours des dessous de verre sous les verres/tasses des breuvages et sous les pots à fleur.
- Tout déversement de liquide doit être enlevé immédiatement car cela peut endommager l'ameublement. Utilisez un chiffon doux et propre et éponger délicatement le déversement. Évitez de frotter.
- Utilisez toujours des tampons protecteurs sous les plats et les assiettes chaudes. La chaleur peut causer des changements chimiques qui peuvent créer des taches sur l'ameublement.

### Autres conseils sur l'entretien du bois

Il est préférable de conserver votre ameublement dans un environnement dont le climat est contrôlé. Les changements de température et d'humidité peuvent causer une décoloration, un gauchissement, un rétrécissement et un fendillement du bois. Il est conseillé de garder l'ameublement éloigné des rayons directs du soleil puisque le soleil peut endommager son fini. Un nettoyage et un entretien approprié à domicile permettra d'allonger la durée de vie de votre achat. De suivre ces conseils importants et pratiques aidera votre ameublement à vieillir en beauté.

Un crayon à retouches est fourni pour réparer toute égratignure qui pourrait se produire lors de l'assemblage ou du transport. Nous vous souhaitons des années de plaisir avec l'utilisation de votre achat. Nous vous remercions pour votre achat!
