

# TAB TENSION

## MOTORIZED PROJECTION SCREEN

Get premium viewing performance and smooth operation with the Dragonfly™ Motorized Tab Tension Projection Screen. It's there when you want it and gone when you don't, thanks to an efficient motor and easy control options. Designed to work effortlessly with most lighting conditions, this versatile screen provides the ideal home theater experience. It's crafted with top-of-the-line screen materials for optimal viewing, tab tension technology to prevent wrinkles, and a whisper-quiet motor - combining impressive high-definition performance with an elegant look and feel.

### **Ideal Picture Quality**

Dragonfly™ Projection Screens deliver maximum picture quality to make movies and TV shows come to life. Available in two premium screen materials that provide crystal-clear, dramatic viewing in sizes from 84" to 130," with tab tensioning bars that ensure perfectly flat, wrinkle-free enjoyment.

### **Whisper-Quiet Motor**

Lower and raise the screen without noise or distraction thanks to the product's top-of-the-line tubular motor. With whisper-quiet operation you can keep the screen out of the way when you're not using it, and set it up for front-row viewing in seconds.

### **Easy Control Options**

Operating your Dragonfly™ Projection Screen couldn't be easier – or smoother. Flexible control options allow you to hide it when it's not in use, then quickly lower it using a control system, a switch on the wall, or a simple remote.

### 2-Year Limited Warranty

Dragonfly Motorized and Tab-Tension Motorized Projection Screens have a 2-Year Limited Warranty. This warranty includes parts and labor repairs on all components found to be defective in material or workmanship under normal conditions of use. This warranty shall not apply to products which have been abused, modified or disassembled. Products to be repaired under this warranty must be returned to SnapAV or a designated service center with prior notification and an assigned return authorization number (RA).

### HIGH CONTRAST

High Contrast screen material is the perfect solution for reducing glare from ambient light and handling projectors with weak black levels and high light output (such as LCD projectors). Having the correct contrast for images is essential for achieving rich color saturation and strong picture definition

### MATTE WHITE

Ideal for home theaters with controlled lighting, matte white screen material delivers impeccable color balance while reducing light "ripples" to produce bright, clear pictures. Enjoy true-to-life images and ultra-wide off-axis viewing.
