

500 Series 6 in. DVC Thin Bezel In-Ceiling Speaker

ES-500TCDVC-6

REAL PERFORMANCE FOR THE REAL WORLD

This 500 series thin bezel speaker marries contemporary aesthetics with incredible performance to create a system that appeals to both audiophiles and designers alike. Its versatile dual coil design delivers stereo output from a single speaker, making it ideal for bathrooms, hallways, and other small areas.

Weight:	1.7 lbs.
Grill Type:	Coated, Steel Microperf (Magnetic)
Mounting Depth:	3.5"
Finished Dimensions:	8.8" diameter, 3.9" deep

Designed to Perform

This thin bezel-look will match any contemporary decor, virtually disappearing into the ceiling for a seamless look. Combined with injection-molded polypropylene woofers and fabric dome tweeters, these speakers deliver a smooth, natural performance.

Built for Sound

Allows for multi-channel stereo sound from a single speaker. The angled tweeter array creates a wide separation of the stereo signal to fill the space, making it ideal for small areas and hallways where a traditional speaker pair would be aesthetically undesirable.

Engineered for Precision

Outstanding driver voicing and a specifically engineered 2nd order cross-over network ensure precise, responsive performance and separates the ES-500 from the pack.

Customized for Performance

Dual tweeter compensation switches for variable room environments allow these high-performance speakers to deliver every time.

Lifetime Limited Warranty

All Episode Speakers have a Lifetime Limited Warranty. This warranty includes parts and labor repairs on all components found to be defective in material or workmanship under normal conditions of use. This warranty shall not apply to products which have been abused, modified or disassembled. Products to be repaired under this warranty must be returned to SnapAV or a designated service center with prior notification and an assigned return authorization number (RA).
