Integrated Refrigerator Freezer, 36", 16.8 cu ft, Panel Ready, Ice

Series 7 | Integrated

The Fisher & Paykel family of Integrated refrigerators provides a new level of fit and finish to deliver seamless kitchen integration. These are designed for easy installation and flush fit into new or existing kitchen cabinetry at heights of either 80" or 84" with minimal gaps. Choose your cabinetry facades* or stainless steel door panel set (sold separately). *Water dispensing models can only use stainless steel door panel set (sold separately).

Width	35 11/16"

Features & Benefits

Clever energy

Your fridge adapts to daily use by cooling and defrosting only when needed. This means your fridge uses the energy it needs without compromising on food care.

Designed to match

With their premium handle styling and stainless steel finish, our fridges are designed to match the rest of Fisher & Paykel's kitchen appliance family.

Ice maker

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space or during busy times, you can boost ice production by up to 30%.

Easy cleaning

No more permanent dirty marks with our EZKleen feature for stainless steel fridges. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

Simple storage

This fridge is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

Easy installation

Our integrated products are easy to install, whether you are renovating your kitchen or designing a new one. Our fridges are designed for minimal gaps with adjustable front and rear feet to allow for uneven floors alongside adjustable door panels that can be customized to match your kitchen.
