SIGNATURE FEATURES

Amazingly Fast

Get amazingly fast heat with induction that transfers heat directly to the cookware and not the surface of the cooktop, which means you can boil water 50% faster than a conventional electric cooktop.¹

Easy To Clean

Don't stress over spills with induction's easy-to-clean surface that generates heat only to your pan, not your cooktop, meaning spills can't burn onto the surface.

Even Heat

Whip up delicious meals with induction that delivers incredibly even heat across the surface of the pan so you get golden results every time.

Auto Sizing™ Pan Detection

Make fluffy pancakes with ease using Auto Sizing™ Pan Detection that automatically senses the size of your pan to only send heat to whatever small, medium, or large pan you are using.

PRODUCT DIMENSIONS

Height (Max.)	47"
Width	29-7/8"
Depth (Incl. Handle)	28-13/32"

MORE EASY-TO-USE FEATURES

True Temperature Melt & Hold

Get perfectly melted goodness with True Temperature Melt & Hold that delivers low, precise heat for melting delicate ingredients or sauces without scorching or burning for up to one hour.

Temperature Precision

Sear steaks, crisp sandwiches, melt chocolate, or simmer sauces with the precise temperature control of induction.

Controlled Cooking

Effortlessly create your favorite recipes with Induction's immediate temperature response that adjusts from a powerful boil to a low simmer.

Quick Clean

Quickly clean your oven in 2 hours with the self-clean cycle.

Safe Surface

The Safe Surface — Induction only heats pans and the food in them: the area around the pans stays cool to the touch.

Energy Efficiency

Since induction only heats your cookware and not your kitchen, less energy is lost throughout the cooking process.

¹8" induction right front burner compared to 3000W Electric Element, 6 qt./10" diameter pot, 1 qt. tepid water.
