

# P101

### Easily mount your projector to your ceiling.

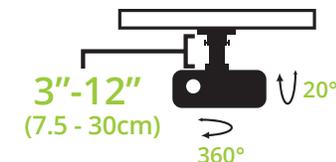

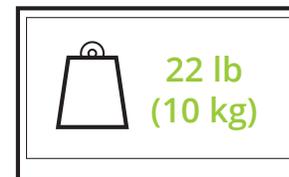

This universal projector mount is most commonly used in boardrooms and offices, but is also ideal for home theater applications.

It features a 360° ball swivel, tilt capability, and can be extended between 9" and 12" from the ceiling. Included is a full set of extension arm lengths and projector mounting hardware to ensure that your installation has all the tools it needs from the get-go. We don't provide the hardware to mount to your ceiling – there are just too many variables involved.

Available in classic black and white finishes.

### FEATURES & SPECIFICATIONS

- Fits most projectors and supports up to 22 lb (10 kg)
- Measures 3" (7.5 cm) from the ceiling to the top of the projector and can extend 9" to 12" (23 to 30 cm) using supplied extension tubes
- Ball swivel allows for 360° rotation
- Solid steel construction with durable powder coated finish
- Spring lock allows easy attachment and removal of projector
- Tilt adjustment of ±20° for ease of leveling and for use on sloped ceilings
- Installation manual and hardware to attach your projector to the mount is included
- Hardware for attaching the ceiling mount plate is not included due to the many mounting and ceiling variables
- Five year warranty
- Shipping box weight: 4.4 lb (2 kg)
- Shipping box dimensions: 11" x 7" x 3.5" (28 x 17.8 x 8.8 cm)
- Product weight: 4 lb (1.8 kg)
- UPC: 800152712260 - P101 (Black)
- UPC: 800152712277 - P101W (White)

### 9" TO 12" EXTENSION

Without the extension tubes, the P101 sits 3" from your ceiling. With the extension tubes, you can extend the length 9" to 12".

### POWDER-COATED FINISH

The P101 is powder-coated with a black textured finish, and the P101W is powder coated in a beautiful white. Choose the mount that best suits your décor.

### SIMPLE INSTALLATION

The ceiling plate is mounted first to your ceiling (hardware is not provided due to the number of different possibilities). The optional extension tubes may be added, and the projector adapter easily clicks into place.

### 20 DEGREES OF TILT

Once mounted, the projector adapter will allow 20° of tilt so you can aim your projector at your screen. The tension of the ball adapter can be adjusted if necessary. The P101 also swivels 360°.

### FITS MOST PROJECTORS

The P101 is shipped with four mounting arms attached to the tilt head, and four longer mounting arms are included in the box. You should be able to reach the mounting holes on virtually all projectors and easily locate the center of gravity.
