

NEW MARKET INTRODUCTION

Camden Luxury Firm Euro Top

INTIMATE
KING KOIL.

KEY FEATURES

Tailormade Tufting™ - Tufting keeps the comfort and supports layers from shifting and sagging over time to help maintain years of a consistent and comfortable sleeping surface.

Joma Wool – A luxurious, flame resistant, water repellent, non-allergenic fiber, New Zealand Joma wool is used in our mattress to maximize your comfort level and ensure breathability.

SnoResponse Memory Foam - This premium quick response and highly breathable foam will cradle to your body after each natural movement for a luxurious sleeping experience.

Horse Hair – Each strand of horsehair is a hollow tube that transports away moisture and excess body heat providing optimal sleeping temperature. Horsehair is also an organic material with natural antibacterial, anti-fungal and anti-mite properties that contribute to a healthy, hygienic sleeping environment.

Handcrafted Calico Encased Coil System – Over 1000 steel coils are wrapped in a breathable natural calico fabric which are then stitched together allowing for greater flexibility and reaction to your body movements.
