

**DESCRIPTION**

Designed for large-scale TVs, the Illusion Moving Art Screen provides a refined solution for concealing your TV. Functioning with the movement of a traditional shade, artwork moves up and down, revealing and concealing the display behind it. Custom-tailored with art and frames of your choosing, the Illusion conceals your display with style.

**KEY FEATURES**

- Artwork from the Illusion Gallery of archival Giclée prints
- Noise level less than 38 dBA (silent operation)
- Traditional hembar & art movement
- Exclusive Lutron Electronic Drive System w/ IR remote
- Aluminum construction with black powder coat finish
- Can be surface mounted using Illusion Razor
- Proudly custom-built in the USA
