

PS01-Wave

Limited turntable edition based on highly

acclaimed Debut Carbon Esprit

MSRP 550 € (incl. VAT)

- "Must have" for fans of Parov Stelar and vinyl
- Exclusive design with 7 printing layers
- 8,6" carbon fibre tonearm
- Non-resonant acrylic platter
- Ultra silent belt drive system with ultra precision frequency DC-driven AC generator and synchronous motor
- TPE motor suspension
- Hightech damping feet made from TPE for up to 20% higher listening levels without distortion
- Ortofon cartridge 2M red

Speed: 33, 45 (manual speed change)
Drive principle: belt drive
Wow and flutter: +/- 0,10%
Speed drift: +/- 0,80%
Platter: 300mm acrylic platter
Main platter bearing spindle: stainless steel
Signal to noise: - 68dB
Tonearm: 8,6" Carbon
Effective arm length: 218,5 mm
Overhang: 18,5mm
Effective tonearm mass: 6,0 g
Tracking force: 10 - 30mN
Included accessory: 15 volts DC / 0,8A power supply, dust cover
Standby power consumption: 1 < watt
Dimensions: 415 x 118 x 320mm (WxHxD) lid closed
Weight: 5,6 kg net

Limited „Parov Stelar“ Edition !

PS01-Wave is joint project of Pro-Ject Audio Systems and Parov Stelar, that sets an audio landmark! Based on the worldwide highly acclaimed DEBUT CARBON ESPRIT (DC), which set a new standard for analogue turntables for the next decade. PS01-Wave is a real eye-catcher and meets the growing demand of all fans of high-class, but affordable vinyl record players and attracts real Parov Stelar fans!

A first class tonearm made from carbon fibre ensures superior stiffness and significantly reduced resonances than metal tonearms. This material normally is extensively used in high-end tonearms, but – because of cost reasons – was never used in products at lower price levels. Together with an acrylic platter the carbon tonearm offers outstanding sound quality levels! The approved

belt drive design offers low noise AC motor with effective TPE (Thermo Plastic Elastomere) motor decoupling, and ultra precision frequency DC-driven AC generator (like Speed Box) for ultimate speed stability without unwanted vibration. Due to this effort 20% higher listening levels without the risk of distortion can be achieved.

PS01-Wave is available as a strictly limited edition of only 1000 pieces worldwide!
