Included accessories	Dustcover, power supply
Power consumption	4.5 Watt max
Dimensions	420 x 112 x 330mm (WxHxD)
Weight	4.0 kg netto

"Rejazzed" is the name of the new DELADAP album. It opens a new, exciting chapter in the band's history with its 8 songs. A story in which the founder and creative spirit of the band, Stani Vana, writes for over 14 years from Vienna with passion and insatiable musical curiosity. A tale of sounds, rhythms, melodies, grooves and hooklines, arrangement fireworks and analogue mixed miracles, human energy and technical feeling, studio- and performance magic.

A handmade story, written in European clubs, as well as on global concert stages. A story of constant change with a constant in view and striving - music that makes its listeners and creators alike at the moment the greatest possible fun and sense that makes freely lived emotions tangible, danceable and audible.

The Primary DelaDap Wave turntable is the perfect solution for everyone who's looking for a good looking and great sounding entry level recordplayer.

Primary DelaDap Wave - a perfect solution

In cooperation with DelaDap, an aspiring Electronic-Jazz band from Austria, we have created this wonderful masterpiece of sound-reproduction. It features the distinctive artwork of DelaDap's record „Dirty Jazz“.

The Primary Deladap Wave record player comes with the acrylic platter Acryl it E, which pushes the boundaries of sound even further. The included Ortofon OM5e cartridge is known for its stellar price to performance ratio. Together with the especially for the OM series tuned tonearm, it delivers an unrivalled and unique listening experience. The stiff and ultra rigid chassis is made of special composite fibre. The turntable is effectively decoupled by four high-tech absorbing feet, to ensure an undisturbed and excellent experience. For protection against vinyl's worst enemy, an acrylic dust cover is supplied.
