Weight: 2,8 kg net

VT-E BT R (right handed)

VT-E BT L (left handed)

Audiophile "Plug & Play" turntable with vertical set-up including wall-mount option!

A turntable set-up does not need to be complicated like rocket-science, our VT-E turntable proves that. This good sounding belt-driven deck offers two versions for left- and right-handed users. The fastest possible installation process is made possible, because it comes pre-adjusted out of the

box. No further set-up is needed. Tracking force and anti-skating are carefully set. The VT-E turntable can be positioned on a table or mounted on a wall. For further ease of use, it comes with a phono pre-amplifier and Bluetooth transmitter. So even a wireless solution is possible! You can use both Bluetooth and RCA output at the same time. VT-E BT, the world's first wireless turntable, is available in black, red or white high gloss colour.
