PWRI-XF

Description

Featuring 2 outlets, Tributaries® PWRI-XF in-wall AC Power Extension Outlet Kit was designed to work with Tributaries® Power Managers to protect remote displays and projectors. But unlike the standard PWRI-X, the XF has additional filtering to provide noise-free AC at the load end. The inlet and outlet are UL® rated and easy to install into dual or single-gang wall boxes. 14AWG Romex® building wire can then be used to join the inlet and outlet. Kits are available with a 6 foot, 9 foot or 12 foot AC power cable terminated with a Twist-Lock Neutrik® PowerCon® connector that mates with the Neutrik® Twist-Lock PowerCon® inlet.

Features

• Dual outlet In-wall Power Extension Kit with built in additional filtering

• Can be used alone as a filtered outlet without surge suppression or in kit

• Kit is designed to work with a power manager to protect remote devices

• Kit includes 1 filtered power outlet, 1 power inlet and a AC power cable

• Connect the power outlet to the inlet using 14AWG Romex building wire

• Outlet is UL® rated 120 volts / 15 amps for remote installation

• Inlet is UL® rated 120 volts / 15 amps for installation near power manager

• The 14AWG shielded power cable is UL® rated with one end terminated with a Neutrik® PowerCON plug

• Safe hot-pluggable AC connection with Neutrik® PowerCON AC connectors

• Kits are available with your choice of 6 ft., 9 ft. or 12 ft. power cables

• 3 UL® certifications and RoHS compliant

Specifications

Line Voltage	**120VAC, 60Hz**
Current / Voltage	**15Amp / 1800 Watts**
Filtering Frequency/Attenuation	**150KHz to 100MHz / up to 70dB**
AC Power Cord	**14AWG shielded**
Cord Connectors	**Neutrik®NAC3FCA Power connector/NEMA 5-15**
AC Outlet	**UL® rated**
AC Inlet	**UL® rated 15A/120V Neutrik® NAC3MPA**
UL® Certifications	**UL498, UL514**
RoHs Compliant	**Yes**
