

**VL040715**  
**Vario 200 series downdraft ventilation**  
**Stainless steel control panel**  
**Width 3 3/8" (8.5 cm)**  
**Expansion element**  
**Air extraction with remote blower AR 400 741**

Ventilation element integrated in the countertop, extractable.  
 Highly efficient ventilation system at cooktop level  
 Minimal planning and easy installation for air recirculation

**Output**

Maximum air output in combination with AR inline blower/ remote blower or recirculation kit. For CFM info, refer to the Models & Dimensions full-line catalog.  
 Noise level depends on the built-in situation.

**Features**

Ventilation grill can be removed and washed.  
 Stainless steel filter with grease collecting tray, dishwasher-safe.  
 No duct connection piece included.

**Planning notes**

Only in combination with VL 041 715. Please refer to the models and dimensions full-line catalog for recommended configurations of downdraft ventilations and remote blowers and the needed ducting elements.  
 Maximum cooktop width between two VL: 24" (exception: VI/VE 270).  
 If installed next to gas appliances, the air deflector LS 041 001 is required to prevent a fire hazard caused by saturated grease filter.  
 When having installed the air deflector LS 041 001 the wok pan WP 400 001 can not be used.  
 When installing a ventilation hood with air extraction mode and a chimney-vented fireplace, the hood's power supply line needs a suitable safety switch.  
 Not for installation in the area of drawers.  
 Please ensure when installing the exhaust air ducting that no sharp bends are caused and that the cross-section of the ducting is not constricted in any way. This can have an impact on the blower performance.  
 For downdraft configurations with maximum lengths of exhaust air ducts go to Rodun at [www.gaggenau.com](http://www.gaggenau.com).  
 Appliance weight: approx. 2.2 lbs.  
 Please read additional planning notes in the models and dimensions full line catalog.
